## CERTIFICATE OF PATENT

**Patent** Article No. 10-2042450

Patent Number

**Application Number** Article No. 10-2017-0113174

Application Number

**Filing Date** Year 2017 09 05

Filing Date

**Added** November 04, 2019

Registration Date

Title of Invention Title of the Invention

**The endoscope and a manufacturing method for the electrically conductive material of the multi-layer coating the catheter**

Patentee Patentee

**Hanyang University Industry-Academic Cooperation Foundation (111171 - \*\*\*\*\*)**

**222 Wangsimni gu, Seoul (I Haengdang-dong, Hanyang University)**

inventor Inventor

**Described in the registration sahangran**

**To prove that the invention of the above patent is registered with the moped registration in accordance with the "Patent Law". This is to certify that, in accordance with the Patent Act, a patent for the invention has been registered at the Korean Intellectual Property Office.**
